

Dear Readers,

It is with much joy and anticipation that we celebrate the launch of Journal of Pharmaceutical & Biomedical Research (PBR) with this first issue. On behalf of the PBR Editorial Team, I would like to extend a very warm welcome to the readership of PBR. I take this opportunity to thank our authors, editors and anonymous reviewers, all of whom have volunteered to contribute to the success of the journal. I am also grateful to the chief editor, Prof. Seyyed Jalal Hosseinimehr and the Vice Chancellor for Research at Mazandaran University of Medical Sciences for making PBR a reality at the 20th year of faculty of pharmacy opening. Also, I would like to extend my gratitude to all my collaborators and colleagues for their support as well as the editorial board for trusting and honoring me by this position.

PBR is dedicated to the rapid dissemination of high quality research papers on how advances in pharmaceutical and biomedical sciences can help us meet the challenges of the 21st century, and to capitalize on the promises ahead. PBR provides an ideal forum for exchange of information on all of the above topics and more, in various formats: review and original articles, short communications, case reports, and letters to editor. PBR is published four times a year. To ensure rapid dissemination of information, we aim at completing the review process of each paper within 2 months of initial submission.

Finally, I would like to invite all of you to submit your best articles to PBR. Authors, reviewers and guest editors are always welcome. We also welcome comments and suggestions that could improve the quality of the journal. Thank you. We hope you will find PBR informative and valuable.

Sincerely,

Prof. Majid Saeedi

PBR chairman
